BE THE CHANGE

AND HOPE PREVAILS !!!

OCTOBER 2023

The Annual Extravaganza- 2023

The year 2023 has seen a rise in our hopes, our aspirations, our dreams and our accomplishments.

CRESCENDO - 2023, has helped us find our hidden reserves of courage and resilience to attempt the impossible.

Our school's Annual Day celebration has been a momentous occasion that brought together students, parents, and teachers to celebrate our achievements, talents, and the spirit of unity.

This year, we embarked on an extraordinary journey into the realm of real heroes and legends, inviting everyone to discover the remarkable stories that have shaped our history and continue to inspire us even today.

The theme for Grades 4-6, Be The Change, proved that heroes need not possess magical swords or wear shining armor, they are just as ordinary or extraordinary as we are, nevertheless they come with a zeal of selflessly serving the communities and being the best versions of themselves.

Through our Annual Day celebration, we aimed to highlight the heroism within each one of us.

The theme for Grades 7-10, And Hope Prevails, showcased the timeless tales of legends that transcend generations. These legendary tales embody the essence of courage, resilience, and the human spirit's limitless potential.

Whether it's the legendary wisdom of King Midas, the indomitable spirit of Achilles, or the enduring tales of Androcles and the Lion. These legends have captured the imaginations of people for centuries.

This Annual Day, we paid tribute to these iconic figures who exemplify the values that have shaped our society.

The two days spectacula was an epitome of blending our past and the contributions of leaders in making the change.

The performances of Cstians were enchanting and a show stopper which left the audience enthralled.

To put up a flawless show like that, the teachers, students, admin and the support staff pitched in together, they left no stone unturned. Students were given rigorous practice on their dialogue delivery, gestures, body language, intonation, and stage etiquettes.

Extra care was taken with regards to the costumes, the background music, makeup that can go with the role, the songs, the dances, the lighting, and the LEDS.

The dedication of our teachers and staff in guiding and mentoring the students cannot be understated.

Their tireless efforts in preparing the children and ensuring the event's smooth execution were fundamental in making the Annual Day a resounding triumph.

The Director of the school, Ms. Shramila Solomon in her speech espoused on the component of responsibility, promise and loyalty and how the Cstians have exceeded all expectations.

She also highlighted that in spite of facing various challenging situations in the past two years with the unstinted support of all stakeholders, the school has been able to uphold all the values it represents and present Crescendo 2023.

She further emphasized how this institution has been able to overcome all odds and has been able to achieve accolades in all-encompassing aspects of academics as well as sports.

Our Annual Day celebration this year wasn't just about entertainment; it was about recognizing the power of storytelling, the essence of the human spirit, and the potential for heroism in all of us.

The themes for Crescendo 2023, were so very intriguing that every attendee left with a renewed sense of purpose and a belief in their ability to make a positive impact on the world.

This year's Annual Day turned out to be an enchanting night of wonder, inspiration, and celebration, reminding us all that we are capable of achieving greatness when we believe in ourselves and each other.

BE THE CHANGE

Be the Change

AND HOPE PREVAILS !!!

Crescendo'23

And Hope Prevails !!!

Field Trip:

Journey to ICRISAT

Learning beyond the classroom has always been part of children's knowledge acquisition at our school.

Cstians Of Grade 10A, had a unique opportunity to visit the prestigious UN organization.

The International Crop Research Institute for Semi-Arid Tropics (ICRISAT), on 14th Sep, 2023.

The students were pleasantly surprised to hear that farmers of our country are now utilizing various modern technologies for crop improvement and water harvesting.

It was quite an exciting trip and the students gained first-hand knowledge of the functioning of the sustainable farming models.

Connecting Home and School Makes us a Great Community of Learners:

The concept of a strong school home connect emphasizes the importance of active parental involvement in a child's educational journey.

This collaboration between educators and parents plays a pivotal role in fostering a supportive learning environment, enhancing student outcomes and in promoting holistic development.

With the successful completion of Term - 1, the school conducted Parent Teacher Meet across Grades.

We thank all the parents who attended the meeting and helped connect home and school.

Reading Challenge:

With a strong commitment to promoting Reading Literacy among students, the Central Board of Secondary Education (CBSE) has been at the forefront of initiatives.

One such initiative is the annual CBSE Reading Challenge, which has been successfully organized since 2019.

The CBSE Reading Challenge is an exciting opportunity for students in classes 6th to 10th of CBSE affiliated schools to enhance their reading comprehension and critical thinking skills.

Language and Levels:

The challenge is available in both Hindi and English languages.

It caters to two levels of students: classes 6th to 7th, and classes 8th to 10th.

Objectives:

The contest aims to engage participants in various reading stimuli and assess their abilities in the following areas:

Reading with comprehension and accuracy.

Constructing meaning by retrieving information, relating text with prior knowledge, and integrating information.

Interpreting information and drawing inferences.

Reflecting and evaluating to judge the quality and credibility of the text.

Two best students from each participating class were registered for the second round of the challenge which was conducted online on the CBSE Portal. We are awaiting the results…

The Best Tech, The Best Future…

Students of Grade 9 participated in a two day Hackathon conducted in Chirec Public School.

The event was a platform wherein the students had to create a new program that is not in the market.

The topics for Hackathon were:

Health

Environment

Urban Planning

Cstians chose Healthcare as their subtopic and focused on Multi Varietal SDG's.

They came up with a problem concerning blood transfusion and a solution to the said problem.

Cstains came up with VIRTUE, a web-application where all the hospitals in the neighborhood are interconnected to each other.

So this helps in coordination and connectivity among various hospitals.

Kudos to the young minds who came up with something that places people's lives as the top priority.

From Sports Field:

The mission at Cornerstone School has always been to create well rounded individuals with a persistent and inquisitive spirit.

Marching towards the same, the school encourages students to participate in various sporting events for holistic development.

Our students garnered laurels to school in the field of sports and proved their mettle.

Jenis from Grade 9, bagged Gold medal in 1000mts race and Bronze medal in 500-D in South Zone- I Skating competitions.
